THE MOVEMENT OF
THE FUTURE!

A Third Way Beyond Capitalism and Communism

HELP BUILD THE PAPER - PAY THE 50p SOLIDARITY PRICE

NFN 117

A CONSPIRACY OF HATEMONGERS

FRONT FIGHT BACK!

SEARCHLIGHT is an anti-NF smear sheet run by 'ex-Communists' and financed by Zionists. It has been central to the System's efforts to halt the growth of our young Movement. It also attacks many of its paymasters' other political opponents including anti-Zionists, radical Labour Party activists, Right-Wing Tories and Black Separatists.

Most of its hostility, however, is directed against the NF. The consolidation and progress made by the Movement since 1986 has driven the *Searchlight* hacks frantic. So they have produced a smear booklet claiming to be "The Inside Story of the NF's Political Soldiers".

This long promised document is a master piece of fantasy, distortion and deceit. It could not influence anyone with a brain who bothered to read it carefully and to notice the many contradictions and marked lack of facts to back up its wild

allegations.

But some naive people and lazy journalists could be taken in. So the NF has produced a booklet exposing the *Searchlight* conspiracy. This well researched pamphlet deals one by one with the *Searchlight* journalists, backroom boys and shadowy backers.

The picture that emerges is unbelievably squalid. Pimps, arsonists, Communists, paedophiles, burglars, homosexuals, and psychotic thugs - *Searchlight* has them all.

The booklet, entitled "The

Other Face of Searchlight - Thuggery, Buggery, Arson and Whores" is the definitive expose of this sordid conspiracy. It is a must, not just for nationalists, but for every journalist and public figure with whom our supporters have contact. It is also a must for members and supporters of all *Searchlight*'s opponents.

Its appearance marks the first time that a serious attempt has been made to deal with this unpleasant little clique. Now, it is up to our rank and file supporters and sympathisers to ensure that it is as widely distributed as possible.

You want to do your bit to turn the spotlight on *Searchlight*, don't you? So make sure you get your copy quickly. See advert on page 8.

The Zionist/Nazi link. Andrew Benjamin pictured in his shop surrounded by Nazi propaganda.

THE need to create a broad-based but principled nationalist cultural network has never been more obvious. For 20 years the NF has been fighting the System on a purely political level. As a result our enemies have been left with a free hand on the cultural plane. Music, literature, poetry and art - all have been totally dominated by the liberal spirit and its sick manifestations.

The NF's drive to provide a real alternative to all this was announced in our last issue. Called *Counter Culture*, it will initially be based around a youth orientated magazine. A new record label will continue the work begun by the White Noise music club, although its work will be broader based and more positive in its outlook. Readers will be pleased to hear that a new record and the first issue of the magazine will appear shortly. *Counter Culture* is based upon reader participation, so please send your film, record and theatre reviews, gig reports, poetry etc, to:

Counter Culture, PO Box 228, Manor Park, London, E12.

We would be especially pleased to hear from any artists, sculptors or those involved in craftwork etc.

YOUNG BANDS

One of the most important areas for *Counter Culture* is the music scene. There is a whole wave of up and coming young bands sympathetic to national revolutionary ideals. It is

vital that they are encouraged to provide a real alternative to the System's poisonous drivel, and to the sick 'Hollywood Nazi' cult which various establishment journalists and businessmen are trying to build up, hoping to provide a blind alley of sterile hatred and exploitation in which to trap naive youngsters.

This unpleasant System-backed sideshow is based upon an unholy alliance between a megalomaniac Nazi and a Zionist businessman. It is centred on the 'Cutdown' shop in the West End of London. This is the main outlet for the merchandise of Ian Stuart Donaldson's Blood & Honour (sic) group. It sells swastika flags and posters, t-shirts and records by Donaldson's rock band, Skrewdriver, and by several other bands which he keeps around to play as support at his concerts.

The fact that Donaldson gets a hefty weekly payment for his services to 'Cutdown' is well known, as is the fact that the shop's owner is the promoter behind the annual 'Main Event' rally at which Donaldson and Co. are booked to provide

entertainment this year.

NOW WE'RE RUN BY WHO?

Less well known is the fact that 'Cutdown' is owned by Andrew Benjamin, a "former" member of Mill Hill synagogue. When organizing Nazi gigs this Hendon-based shark uses the alias Andrew St. John.

The sight of a middle-aged 'teenage' Nazi and a Zionist Jew working hand in hand to misguide and rip off young people seeking an alternative to the sick liberalism of the System is truly repulsive. But it is no surprise.

There is a long and well documented history of Nazis and Zionists co-operating. The Zionists use the Nazi threat to stampede ordinary Jews into supporting them, and to use the tactic of "smear by association" by falsely linking the antics of these scum to the activities of genuine nationalists.

The Nazis in turn are happy to pocket the cash and bask in the publicity puffs arranged by their well connected Zionist associates.

So it is no wonder that more and more bands are getting involved with *Counter Culture* to work together to provide a principled and independent outlet for their talents rather than playing second fiddle to a self-centred Nutzi in the pocket of a wealthy Zionist Jew.

"Pay them back woe for woe, strike them back blow for blow."

HOME AFFAIRS, ANALYSIS & COMMENT

CUTBACKS
WILL BURN
TORY FINGERS

UNDER the prevailing ideology held within our parliamentary dictatorship everything must make a profit.

It is well known that this attitude has put lives at risk in the health service and in areas such as the coastguard service.

And now, the latest government plan will hit the emergency radio services.

Government plans to cut jobs on emergency radio links for fire services by some 15% will put lives at risk. This analysis is also backed by the civil service unions.

Nearly 250 jobs out of some 1,500 are under threat. With all the job losses, particularly over the past 10 years, this does not sound like much. But when the type of work involved is considered it can be seen that such losses will practically render the service unworkable.

Job losses will also affect those who install and maintain equipment for the vast majority of fire brigade emergency networks.

The Kings Cross Tube disaster: How many more would have died if the emergency radio links had been cutback before the tragedy?

CHOOSE ANY COLOUR AS
LONG AS IT'S BLACK!

MANY years ago when Henry Ford Snr. was asked about the lack of choice relating to his mass produced 'Model T', he responded - yes you do have a choice: "You can choose any colour you like as long as it's black."

Not so long ago, a survey revealed that a massive 97% of Britons were in favour of cultural and racial preservation by halting non-White immigration. Yet, in keeping in tune with their ideological preferences, whether of the Left or Right of the System, the politicians all believe in the destruction of the many and varied peoples and cultures of the world. The diversity of the world hinders either the economic struggle or the class struggle. So in the best traditions of parliamentary representation they have decided that they know what is best - at least for themselves!

Similarly, they have all bowed before the debt-finance system, seeking an easy life and deciding that they may as well make as much out of it as they can whilst the rest of us suffer from its effects.

Many years ago, before its tentacles tightened and it was still possible for politicians to warn of the usury-based system and hang on to their positions, some did speak out. MacKenzie King, once Prime Minister of Canada had this to say:

"Until the control and issue of currency is restored to the state and recognized as the government's most conspicuous and sacred responsibility, all talk of sovereignty of parliament and democracy is idle and futile."

Although we strongly deny that the party, or parliamentary, structure of government is best, we fully concur that without the nation being able to control and issue its currency all talk of "democracy is idle and futile."

Henry Ford Snr. would no doubt say: "You can have any government you like as long as it promotes racial destruction and is controlled by faceless and unanswerable banking elites." For as with his 'Model T' the reality is no choice at all!

CORRECTION

IN an article in our last issue entitled "Crimes Against Humanity", reference was made to "the sinking of the General Belgrano during the tragic Malvinas conflict." This sentence should have read "during the tragic Falkland Islands/Malvinas conflict."

There is no doubt that the Belgrano was outside the exclusion zone imposed by Britain when it was attacked, this is confirmed by official British authorities. There is also little

doubt that the reason for sinking her was to scupper any chance of a possible early peace settlement which would have lessened the value of the conflict to the Tories at the 1983 General Election.

But it is also the case that a reactionary military junta launched an unprovoked invasion upon territory solely inhabited by people of British ancestry. Therefore, the blame for starting the conflict in the first place rests squarely on the shoulders of the now-deposed clique that imposed itself upon Argentina at the time.

HIGH-TECH
OUR SERVANT OR OUR MASTER?

A British-based software company, Logica, have just announced that they have developed the world's first 100% accurate system for speech verification; identifying individuals by their voice patterns alone.

Logica's new system examines six characteristics of the human voice to identify a caller from just one word. It has been reported that Logica have been working on this system in conjunction with British Telecom, but what this incredible breakthrough will be used for has not been stated.

Its development shows two things of interest to nationalists in this country. First, that even after years of cutbacks in education and research, the scientists and technicians of

these islands are still able to produce world-beating techniques and products.

Secondly, it is another sign of the enormous range of hitherto undreamt of power which modern technology is making available to an increasingly repressive State.

Both sides of the high-tech coin make it imperative that young nationalists who have the aptitude and the opportunity to embark on a career in information technology or related computer-based subjects should do so.

The computerised State can either be an invaluable servant or the most tyrannical master the world has ever seen. We can not afford to ignore the danger - or the opportunity.

GREAT
BRITAIN
Ltd.

THE government has permitted 'Great Britain Ltd.' to become the dumping ground for the world's toxic wastes. The most lethal type of waste is Poly Chlorinated Biphenyls - PCB's for short.

A fire in a BCP warehouse in Canada recently led to the evacuation of 3,900 people living in the vicinity and millions of dollars worth of crops lost through contamination.

PCB's cannot be dumped in America as the U.S. government introduced a ban on their importation

several years ago. But while other countries will not take this waste, for obvious reasons, G.B. Ltd is always on the lookout to make a bit of money and is quite prepared to become the world's dustbin. We import tons of PCB's each year and this year alone about 300 tons have found their way to Pontypool in Wales by ship and another 30 odd tons by plane.

Yet one Canadian M.P. has gone on record as saying that "a plane carrying PCB's could go down in the ocean and pollute the entire North Atlantic." This is equally true of ships as we have inevitably witnessed recently in the Channel Islands and elsewhere. And then there is the risk of a road accident with PCB's getting into crops and water supplies.

This is yet another major environmental disaster just waiting to happen as a result of short-term greed.

DISCLAIMER

THE National Directorate of the National Front wishes to make it clear that the *Flag* and *Vanguard* are not National Front publications. They do not reflect NF policy or strategy and do not speak for the National Front.

They are produced by a small clique of reactionaries, thieves and drunks, expelled from the NF in 1986. Officials are reminded that both publications and their editors are proscribed. Members of the public are warned that the NF cannot be held responsible for money lost on subscriptions to the *Flag* and *Vanguard* when they cease publication.

MAY THE
FORCE BE
WITH YOU

ONE IN FIVE police officers in Britain are Freemasons according to a new book published this month.

Author, Martin Short, says they include the Scotland Yard Commanders of anti-terrorism and criminal intelligence and the Chief Superintendent in charge of major crime investigations. Former Met. Detective Chief Inspector, Brian Woollard, has campaigned for seven years against Masonic influence in the force.

He insists it led to his dismissal from an investigation into corruption in building contracts and to his subsequent sacking.

"At the time I was challenging the influence of Freemasonry in the Met. the entire senior command of the CID had their trouser legs rolled up" says Woollard.

At least 5,000 London policemen have remained Masons, against the superficial advice of their official handbook.

The Masonic grip?

WHERE
WE STAND

NATIONAL FREEDOM

Britain is a family of Nations - England, Wales, Scotland, Kernow, Mannin, Eire and Ulster - linked by blood and history. The peoples of all nations have an inalienable right to self-determination and to preserve their native cultures and traditions. We look forward to the day when Eire voluntarily rejoins the future federated British family of nations.

RACIAL SEPARATION

Race is the main determining factor in nationality. Racially mixed societies cannot form one nation and are therefore unstable.

No one race is 'superior' to others, but they are all different. Racial integration threatens all races. Humane repatriation is better for us all than endless repression and racial violence.

SOCIAL JUSTICE

The nation is a great family. Every member of our national family has the absolute right to care at the nation's expense when young, sick or old. There must be equal opportunity for all, but unearned privilege for none.

WELL DISTRIBUTED
PROPERTY

The realistic opportunity to own one's own home and place of work is the right of all our people. Direct ownership of the means of production and distribution is essential for individual freedom, for family stability and for the

best use of our national resources.

SANITY IN FINANCE

The right to create the credit needed by the economy must belong to the people's government. The banks, which have usurped this right, must be stripped of their unjust gains and power. The National Debt is based on usury and must be repudiated.

RESPECT FOR NATURE

We hold the environment in trust for future generations. Pollution of the land, sea and air, and of the gene pool through radiation, is a betrayal of that trust.

POPULAR RULE

Parliamentary representation is a fraud. Party rule is a cloak for the

dictatorship of vested interests and media bosses. Government must be in the hands of the people themselves, through new information technology, and the election of delegates to carry out their wishes. Power must be devolved to the lowest possible level.

THE ARMED PEOPLE

The freedoms given by these principles must be defended through armed neutrality, with well-equipped national defence forces involving the entire adult population. Power, wealth and arms in the hands of the people!

REVOLUTION NOT REFORM

These changes cannot be brought about by tinkering within the System, or by relying on the System's own institutions, such as parliament, schools or the

courts. They can only spring from a National Revolution. This revolution must begin in the hearts of individuals, then spread by their example to involve whole communities in revolutionary structures such as alternative councils and schools, neighbourhood patrols and self-help groups. Once we cease to depend on the institutions of the old State, it will be swept aside.

THE THIRD WAY

The growth of these ideas in nation after nation shows that a new force is rising in the world for the 21st century. Leaving behind the sterile hatreds of Capitalism, Nazism and Communism, this *Third Way* offers a real future for all our peoples. We urge all those who agree with these principles to join with us in the struggle to build the National Front - the Movement of the Future.

HOME AFFAIRS, ANALYSIS & COMMENT

OUR RIVERS NO LONGER RUN FREE

from pollution!

EVEN our rivers no longer run free! They are getting filthier all the time.

The number of cases of water pollution has *doubled* in the last five years. Since 1984, almost 2,000 sewage works have had pollution controls relaxed to allow them to escape prosecution because they did not come up to the required standard in the first place. In some areas up to two thirds of companies have been allowed to exceed pollution control limits.

And now the government is applying to be exempted from EEC regulations on permitted levels of aluminium, lead and nitrates in water. This means that pollution with these materials - which cause insanity, brain damage in children and cancer - has risen so far above official danger levels that the Tories reckon that the only way out is to raise the official danger level figures! In plain English they're moving the goalposts again but this time they're playing games with our health and even our lives.

THE BOSSES ADMIT IT

Even the bosses' magazine, the *Economist*, has admitted that the reason for the growing pollution of our water is "the pressure to cut costs

under the Conservative government."

That pressure is rising rapidly in the run-up to water privatisation. This can only go ahead if profits are not hit by the cost of reducing pollution. Hence the policy of turning a blind eye, and the decision to allow the future private water monopolies, in order to make the customers rather than the polluters pay to clean up the deadly mess.

PRIVATE WATER THREATENS THE LAND

The Tory plans to sell off the Water Authorities will also threaten nearly half a million acres of unspoilt land in the towns and in the countryside. This land will be part of the sell-off package. And asset-stripping of the privatised industry will then provide rich pickings for City fat cats and property developers.

Dr. Art Lance, Conservation Director of the R.S.P.B. and Andrew Purkis, Director of the Council for the

Protection of Rural England, fear that the decision to privatise the water industry in England and Wales will have far reaching implications. And they give the government plans short shrift: "It is not clear that the government itself has fully examined

the full environmental implications of its water privatisation policy."

Of course they haven't. The only things the Tories examine fully are the huge donations they get from property developers and construction companies.

MARXISTS GET THE ELBOW

HARDLINE Asian organizations are growing rapidly in the East End of London, at the expense of neo-Marxist "community projects". Left-wing youth workers are watching helplessly as their support among young people in areas like Spitalfields fades away!

Ever increasing numbers of Asian youngsters are rejecting attempts to Westernise them and are rediscovering their roots. The recently formed Young Muslim Organization already has 1,000 members who have passed its vigorous tests of training and commitment.

Jamaat-i-Islam, an Islamic fundamentalist party in Bangladesh, is also in the process of forming branches in London, where many Sikhs are organizing politically on behalf of their homeland in the Punjab, rather than taking part in the normal political life of Britain.

All this is a further welcome pointer to the failure of multi-racist community politics and integration campaigns. Only a few years ago the Asians, with their keen business sense and high level of political awareness, were widely seen as the vanguard of

integration. But now they are at the forefront of a revival of racial and cultural pride. This means that the multi-racist drive to turn Britain into a rootless and apathetic lumpen proletariat has failed.

For this we must be grateful to the religious fundamentalists among the Asian community who are restoring a sense of belonging amongst Asian youth and opposing moves to integrate and destroy the different communities.

But while multi-racism is dead, its rotting corpse will still pollute and threaten our nations until it is totally buried. And that can only be done when the White majority awakes.

Asian Pride, Black Pride, Yellow Pride - we are not afraid to say that we support them all. Nor are we afraid to say that the National Front still believes, and always will believe in White Pride!

PARTNERS NOT WAGE EARNERS!

NO-ONE ever becomes abundantly rich by their own labour, although it's often the case that many will try to gain material wealth off the backs and sweat of others. The vast majority of people are nothing more than wage slaves.

Three years ago there was not one company director who 'earned' more than £1 million a year, and only four directors 'earned' more than £500,000.

But the greed ethic is growing fast. 23 company directors now award themselves salaries and dividends worth more than £1 million and a further 25 receive more than £500,000 a year. This is nothing short of legalized mugging of the workers in those industries.

This injustice is a source of enormous social tension and economic dislocation. It is also a powerful reason for more and more ordinary people to come to support the NF view that the economy should be run by family businesses and partners in co-operative concerns. Social injustice can only be banished by Distributism!

SCHOOL OF DEATH

OUR Capitalist masters aim to destroy all cultures and races in the drive to create a raceless, cultureless mass of people who can be uprooted whenever the demands of the labour market require. As part of this evil process they must destroy all loyalty to family, race, nation and culture. They must destroy all sense of community.

An example of how this is done can be seen in the State school system. The most important years of a person's life are those formative years when they are young and receptive to ideas. The System understands this only too well and generations have been poisoned by the liberal ethic.

And now, the next stage of the strategy is developing. Children are to be subjected to the teaching of "global history." In other words, the history of every race and culture except our own.

When the youth lose their sense of identity, and belonging, is it really surprising that they also lose respect for tradition and values.

We would certainly ensure that the young are taught about the history of the British Empire, which did much to destroy the natural development of other nations and peoples and milked them dry of their resources and dignity. We would teach them that this same Empire did the same to our own peoples and helped to destroy our communities.

But we would also concentrate on the great achievements of our race over the centuries, because respect for and pride in the great achievements of the past are the keys to a sense of identity and a sound basis for the future.

WOULD-BE Nazi pop star Ian Stuart (Donaldson) has been having a really hard time lately. As well as fatally mucking up the organization of most of his gigs and getting bottled by opposing thugs he must be living in fear of his new found friends who make a living out of protection rackets and murder in Ulster.

We wonder how he can possibly explain to these people, his well-known close links with a group called the White Aryan Resistance (WAR) who are based in the USA.

WAR frequently advertise a promotional video entitled "IRA IN ACTION" in their newspaper. Perhaps the sectarian Ulster Defence Association (UDA), who specialize in killing Catholic milkmen, are wondering just how precisely they should explain to Donaldson that his services are no longer wanted!

AND how does Tom Acton, printer and leading member of the reactionary *Flag* group, explain his T-Shirt advert published in issue 8 of the openly Nazi *Blood & Honour* magazine. Sneaky Acton has used a different PO Box for his Nazi advert and called his business 'V. Shirts'. But Acton has overlooked the fact that he has given in the advert the account number of 'Vanguard Shirts' - the name of his real business. The *Flag* PO Box is also advertised in the Nazi rag.

The question is does Acton's boss, Martin Wingfield, know about this? We well remember Wingfield telling everyone that the *Flag* would never be associated with the Nazi's of the British National Party. Yet now, it seems that Wingfield is happy to recruit and make money out of Acton's chums.

STRANGE alliances are being made in the world of trendy publishing.

Searchlight magazine has been attacking *City Limits* at every possible opportunity, accusing them of taking a soft, or even supportive line, towards the Movement and reproducing our material. *City Limits* has, for the benefit of non-London readers, published a number of investigative stories about the NF.

This seems to be extremely hypocritical of the boys at *Searchlight* as they frequently use, without permission, photographs and other material of ours that in many cases has been sent in general press releases to *City Limits* main rival, *Time Out*.

Could the answer to these puzzling events lie in the fact that *City Limits* seem to be far more successful at investigative journalism than *Searchlight* and *Time Out*, and that *Time Out* news editor, Andrew Bell, is a close personal friend of *Searchlight* publisher, Gerry Gable?

THE FRONT LINE

COMMUNITY ACTION

THE NF in Wirral have been developing their Community Action projects in recent months. They report on their latest struggle below, in which they are attempting to organize the community to save a local hospital.

The campaign to preserve accident and acute medical services at Clatterbridge Hospital continues to gain support and moves are now underway to organize a series of protest meetings across the Borough, but especially in South Wirral, which will be the worst effected area.

Proof of the strength of feeling in the community was shown at the public meeting at Bebington in February. Over two hundred people were actually locked out of the meeting; there wasn't even any standing room left!

BUREAUCRATS

The plan to downgrade services at Clatterbridge and turn the hospital into an annexe of Arrowe Park, in Birkenhead, is a bureaucrats plan which ignores the feelings of patients, residents and medical staff.

Wirral Health Authority state that casualty services at Arrowe Park will be more than sufficient,

NOT content with leading the fight to save Clatterbridge from the Tory Reaper, NF members and supporters from Wirral are heavily involved in a number of other campaigns. Some of these are standard activity for efficient units and regions. For instance Wirral, along with other units in North West England and Cymru, are attempting to set up new units throughout North Wales. The importance of this type of missionary activity for the Movement can not be overstated.

They are also the leading lights behind the popular "Mobility 2000" campaigning group. The group are concerned with fighting for the introduction of adequate facilities for the disabled in the area, and for them to be accepted, in a practical sense, as an important part of the community. The campaign has taken the form of a number of informative leaflets, pointing to the discrimination and frustration suffered by the disabled because of the distinct lack of facilities such as ramps and handrails in council and business premises. "Mobility 2000" has already received popular support and several imaginative and attention grabbing stunts have been decided upon in order to intensify the campaign.

The Wirral section of the Movement has also started to produce its own local bulletin. Entitled "Wirral Voice", the first issue is centred around the Clatterbridge campaign, and includes news of "Mobility 2000" as well as articles about deteriorating local bus services, the very real threat of development in the beautiful Cheshire countryside and a bit of cultural history about Bromborough.

Can your unit claim to be doing as much for the Cause as Wirral NF?

which is doubtful. But this is to ignore the fact that it would mean a very long trip for people in Bromborough, Eastham and the Bebington area. WHA forgets to

mention that the population of Wirral Borough is over 320,000 - more than the populations of such cities as Belfast, Coventry, Cardiff and Newcastle. Could these, and

Under threat: Clatterbridge Hospital.

similar cities, manage with just one hospital?

REPRESENTATION IN PRACTISE

But perhaps one of the most enlightening aspects of this affair, as far as the vast majority of the community is concerned, is the obvious reluctance of 'our' elected representatives to show up at the public meetings. One of them in particular, Barry Porter, representing Wirral South for the Tories, is a staunch supporter of the downgrading plan. Yet he didn't dare turn up at the Bebington public meeting to explain to those he is representing why he is ignoring their unanimous wishes and supporting his particular party line.

People throughout the Wirral are now asking themselves: "Do M.P.'s

represent the voters or themselves?" It is up to us to show them that parliamentary representation is an undemocratic fraud and lead them towards popular participation: Participation in the community and participation in government, in a real sense. In other words, we must lead them to understand that they have not only the right, but the obligation, to make the decisions that directly affect their everyday lives and their community.

Wirral NF have thrown themselves fully into the campaign to save Clatterbridge Hospital. One of the first things that they noticed was that the campaign lacked organization and had not developed even the semblance of a strategy to work within. This is something that they intend to rectify immediately!

CRIMEBUSTERS!

"BRITAIN IS A SICK SOCIETY!" Women can no longer safely go out alone for fear of being abused, molested or raped. Many pensioners have become virtual prisoners in their own homes for fear of being mugged. Even young children are no longer safe playing just yards from their homes. **IS THIS THE KIND OF SOCIETY THAT YOU WANT TO LIVE IN?** screams a new leaflet being distributed by Croydon NF.

In our last issue we reported that the unit was engaged in distributing a letter written by the father of a young girl, brutally murdered outside a South London train station, around the local community.

The letter called upon the Home Secretary to allow a referendum on hanging for premeditated murder.

Now the unit has taken its campaign one step further with the new 4 page leaflet.

It outlines the fear felt by three vulnerable sections of the community - women, pensioners and children - and the increasing danger that they face in this sick society.

SO WHO IS TO BLAME?

And then the leaflet goes on to point to the guilty parties who are to blame for this social terror.

"The Politicians - The social and moral decay of Britain has quickly accelerated due to the policies of all the political parties. Successive governments have blindly created the conditions and atmosphere for selfishness and hate to abound. Their only motive is power and material prosperity for themselves. Those politicians who entered the arena with pure motives have become servants of the corruptive nature of power. None of them have any genuine concern for the people - people like you.

"Is it any wonder then that faced with no future and raised in a system that denies self-respect and honour, many

people have applied the politicians own mentality, that of self-interest and crass materialism, to their own environments?

"The Police - If anyone still thinks in terms of the 'friendly bobby on the beat' then they are living in a dreamworld. Much of the work of the police force today is political. They take their orders from the politicians who use them to uphold their corrupt domination over society and to suppress genuine radical political opposition. They have become political tools; tools of small but powerful interest groups.

"If this means ignoring certain crimes or taking an easy approach towards others, then this is what happens. And it does happen, too frequently. The police claim they are understaffed and overworked. If they spent more of their time fighting and solving crime instead of suppressing peaceful political opposition to the System, then they wouldn't have much ground on which to complain.

"The Courts - Although a standard range of penalties for specific crimes exist, it is often the case that the most lenient sentence is given for some of the worst crimes imaginable. Many judges and magistrates abuse their duty to the community by directing their perverse liberal attitudes towards some of the most heinous crimes as statements of their 'humanity'. If these people possessed

any real sense of humanity then they would ensure that child molesters, rapists and a whole host of equally demented criminals were separated from society. But instead, we hear of many cases, week in and week out, where these sub-human monsters are let off with incredibly lenient sentences and are back terrorising our communities within a few short months or even minutes!"

WHAT CAN BE DONE?

The leaflet continues by asking what can be done and pointing out that we need penalties that fit the crime. It uses the example of capital punishment for pre-meditated murder and quotes M.P. John Wheeler on the subject to underline the fraud that

passes for democracy.

"Those who favour capital punishment - almost certainly a majority of the population - have to recognise the existence of a substantial minority who passionately oppose the idea; a minority, moreover, which probably includes a majority of those who form opinion."

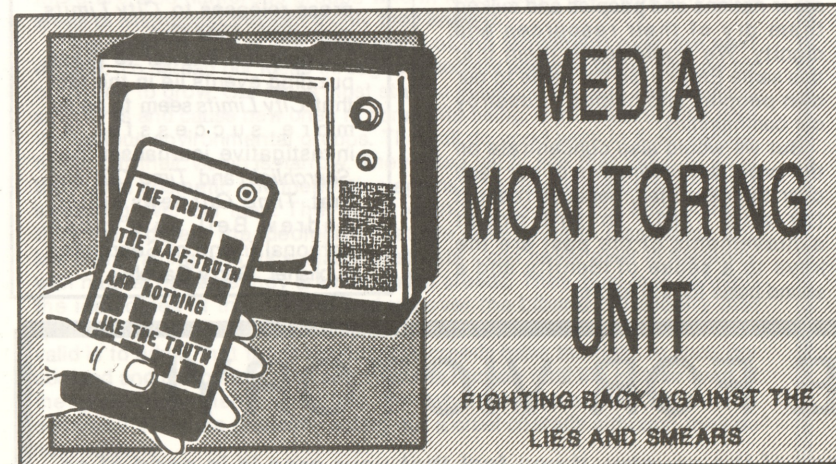

The leaflet ends by stating that even if the appropriate sentences were introduced tomorrow nothing would change because it is the type of society that we live in that causes these problems in the first place.

"Only the National Front hold a vision of a new society, based upon absolute moral values and social justice. The alienation that leads to crime and the selfish attitude prevalent today can only disappear when people become a living part of

their community. This can only happen when they are given the opportunity to become masters of their own destinies instead of cogs in a giant State machine. It can only happen when people are able to determine their own futures within the framework of society.

"And this will only happen through the National Front.

"We are not politicians; we reject the materialism and selfish attitudes of today. We are a Movement of national regeneration, consisting mainly of young people who live lives of self-sacrifice and service to the community. Because only in this way, through example, will the actions and attitudes of people change. Only in this way can the Modern Age be overcome, and only in this way will society change!"

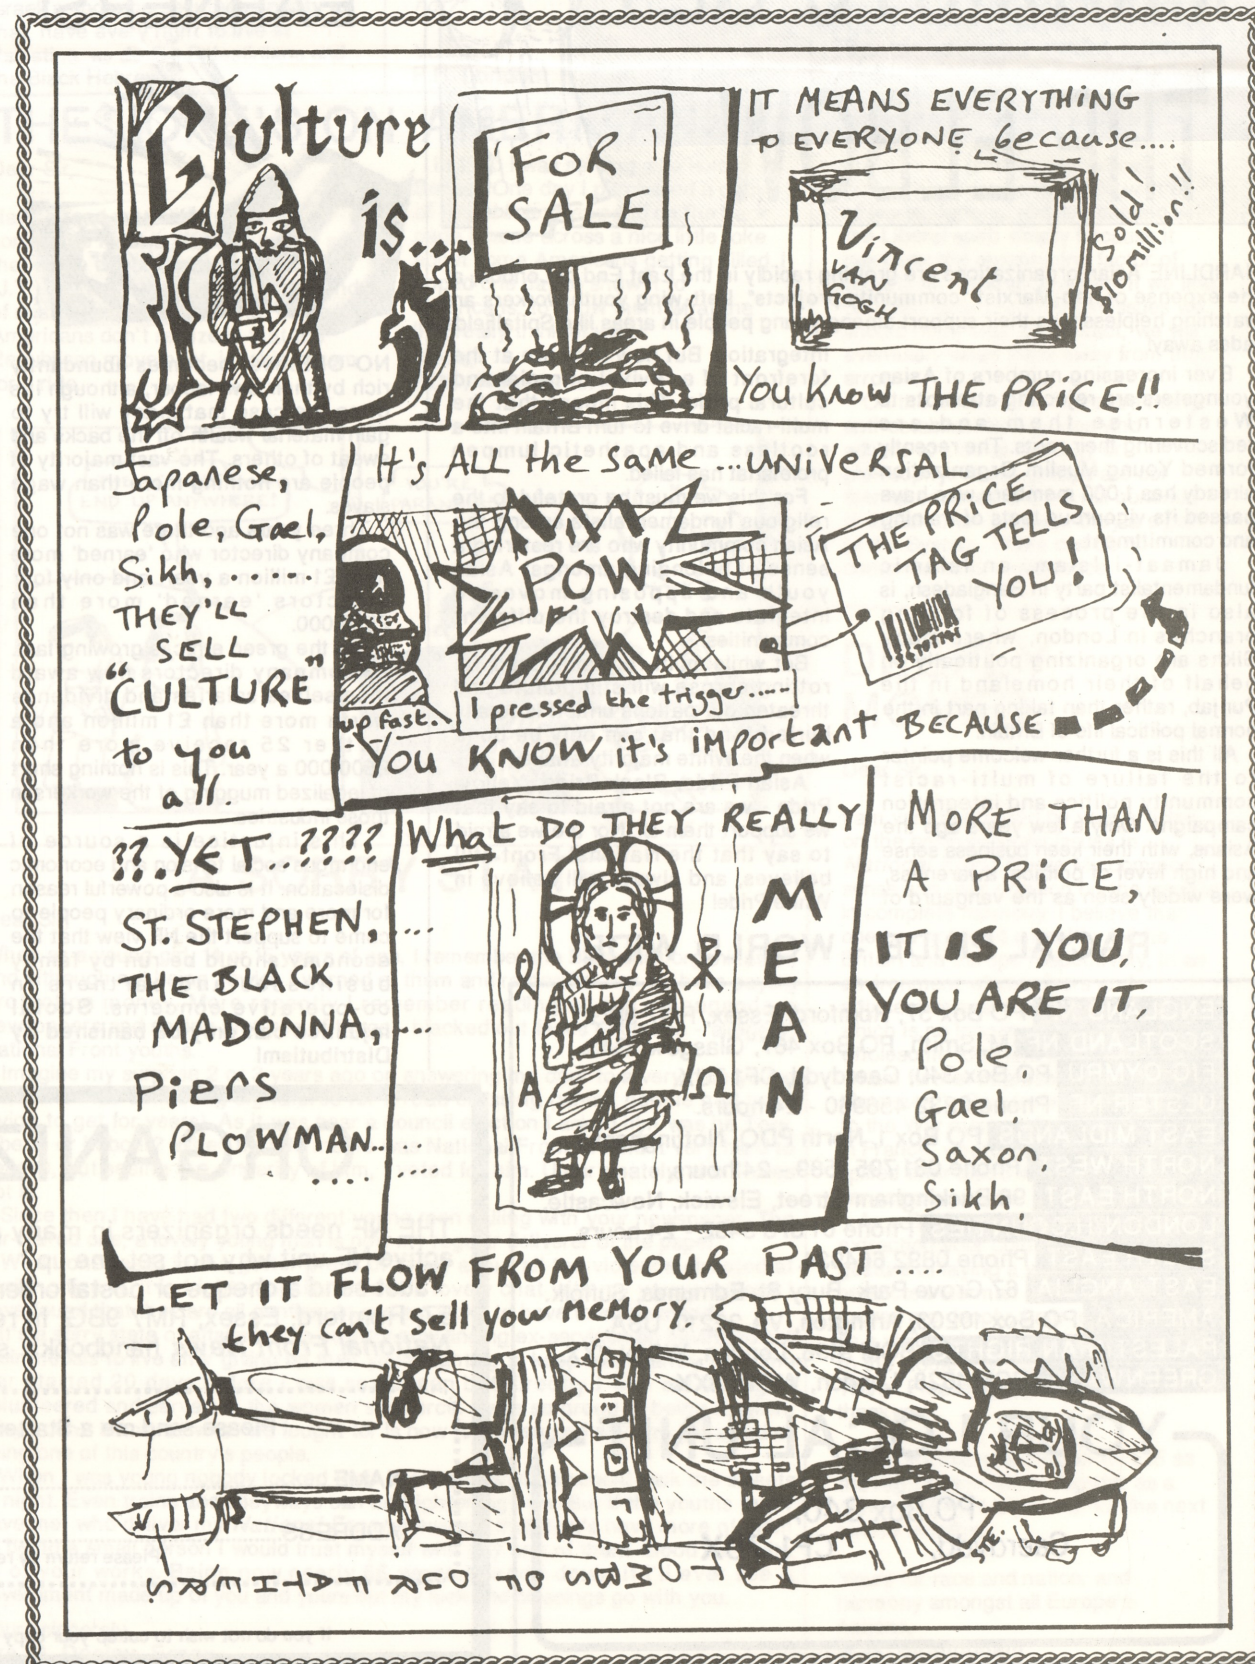

THE MEDIA MONITORING UNIT plays an extremely important day to day role within the Movement. Much of our success depends upon supporters helping us in our task.

Readers should always be on the look out for mentions of the Movement, however large or small they may be, in the media. This includes national and local press, T.V., including satellite and cable, radio, political and interest magazines and so on.

The date, name of paper or magazine and its address should be sent to us so that we can take issue if necessary with the particular bodies that regulate the different forms of media. Likewise, any T.V. or radio transmissions should be recorded if possible, or transcribed, and sent to us with similar details of the programme, channel, date, time etc. If at any time you do not manage to record or transcribe a programme then just let us know that we were mentioned, again including the relevant details, and we will pursue the matter.

The work of the MMU is vital to the National Front, and it is vital that we monitor the media effectively. So please do not assume that we know about a particular story or programme in which we are mentioned, or that someone else will let us know. We need your help!

Please send all correspondence to: MMU, PO Box 1138, London, W3 8DX.

THE GRINCH WHO STOLE CHRISTMAS

TEAR-GAS cannisters are hurled from the rooftops at crowds of men, women and children as they leave the Church of the Nativity after hearing Mass. The crowds begin to chant nationalist slogans and they are answered with hails of vicious plastic bullets.

This was the scene in Bethlehem, birthplace of Christ, on Christmas Day last.

While the world happily went ahead with its Christmas festivities and for the most part forgot what it was celebrating, the Palestinians of Bethlehem, in the Holy Land, affirmed their faith in God, remembered their martyred brethren and refused to carry out their traditional celebrations in protest at the continuing occupation of their country. Whilst hundreds of Israeli soldiers effectively besieged Bethlehem, the town with its predominantly Christian population virtually closed down over the Christmas period.

Over the past year over 10 Palestinians have been killed, 400 injured and 750 arrested in Bethlehem alone. The shuttered shops and deserted streets in the town, normally full of joyful processions and pilgrims at this time of year, paid stark tribute to the blood of the martyrs.

As Israeli troops set up barricades surrounding Manger Square, body-searched anyone entering the area, and roughly questioned the few children who ventured out just before sunset on Christmas Eve, Bethlehem's mayor, Elias Freij, answered reporters questions

"In those twelve months" he explained, "our people have paid with so much blood, so much suffering. We are not in a mood to celebrate. People have been killed, beaten, jailed."

His cousin, Jerry Freij, who is also director of the boy scouts in the town, added, "We have lost too many people. There can be no celebration this year."

Traditionally, the boy scouts escort the Latin Patriarch, from his seat in Jerusalem to the site of the Nativity on the day before Christmas, pounding

drums and waving banners while priests, monks and the Faithful line the road into Bethlehem cheering him on.

But there was no procession this year. The Patriarch, Archbishop Michel Sabbah, was driven silently to the Church of the Nativity, led the people in prayer and meditation and then moved next door to St. Catherine's to celebrate Mass.

"The people, the Christian Palestinians in Bethlehem and the Holy Land, do not have the joy of Christmas in their hearts," the Patriarch said in his Christmas message. "Some had a son or father killed, others are still in prisons, and all face heavy military repression."

PREDICTABLE RESPONSE

The Israeli government of occupation, however, refused to listen. It was far too busy trying to contain the damage done to the Zionist State's image as "The Grinch Who Stole Christmas" as it began to be known - a reference to a children's tale about a monster who sneaked into town on Christmas Eve and stole all the decorations and presents.

But the Israeli damage-control plan had been prepared for months and had already been quickly set into operation. It consisted of a mixture of intimidation and misinformation, two methods at which the Zionists have become very adept.

The intimidation started on December 20th, when the military governor of Bethlehem, Lieutenant-Colonel Shaltiel Lavy, ordered local merchants to his office. He put it to them that if they did

not decorate the streets and their shops and arrange for others to do likewise, they would find their lives even more difficult to bear than at present.

The warning was widely reported throughout Palestine, but only served to strengthen the determination of Palestinians and shock a sizeable number of Jews.

No decorations or Christmas trees were put up, all the shops closed down and everyone stayed indoors except for when they had to go to Mass.

This triggered off the Israeli's 'Plan B', which consisted of a desperate and pathetic attempt to portray the situation as "normal".

OBSCENE

This obscene charade led to heavily armed Zionist troops putting up Christmas lights around the military headquarters and the world's press photographers were invited to take pictures. Choirs from around the world were suddenly invited to come to Bethlehem at no expense to put on Christmas carol performances. Only three choirs duly obliged - from the U.S., Spain and Switzerland - and their singing rang hollow in the desolate streets, their only audience being the hundreds of soldiers manning checkpoints and patrolling the streets, along with a small handful of foreign pilgrims who had believed the Israeli tourism ministry's propaganda.

When the Western choirs had wandered away, soldiers rigged up loudspeaker systems and the shrieking voice of Barbara Streisand blared out for hours on end through the narrow streets.

Zionism's 'justification' for this obscenity read as follows:

"No secular municipal action will either dampen the religious fervour of the pilgrims or mar their freedom of worship."

The tourism ministry's press release went on to add that all pilgrims would be given a free reproduction of a 16th century map of Jerusalem. But there were few takers as the hotels in Jerusalem and Bethlehem were almost entirely empty, and so were the restaurants, many of which refused to open.

DIVIDE AND RULE

The dismal turnout activated Israel's 'Plan C', an attempt to blame Palestinian Muslims for the cancellation of the Christmas festivities. It was a two-pronged plan that intended to divide Palestinian Christians and Muslims in their opposition to the common enemy. And secondly, it intended to focus the blame on Muslims, for the consumption of the world's Christians.

The divide and rule tactic within occupied Palestine failed dismally as the Zionists must have known it would. After all, the Intifada began after a Christian youth was shot dead upon leaving Mass. There are an estimated 65,000 Christians living in the occupied territories, and the initiative for the Christmas protests lay with them. This was common knowledge in both communities, and furthermore, the Christian initiative received solid backing and practical support from Muslims in Bethlehem and Jerusalem.

But the second intention of 'Plan C' has met with better results. Aimed specifically at the U.S., the campaign was exemplified by an editorial that appeared in the Zionist lobby's main newsletter in Washington, *Near East Report*.

"The uprising", it stated, "has stolen Christmas... The Intifada has muted Christianity's most important birthday celebration and has struck a blow to Bethlehem's unique identity."

How many American's will believe that? We wonder!

Over the Christmas period - 19th to 30th December - 16 Palestinians were killed, over 116 injured and a young boy kidnapped from a refugee camp by Zionist settlers. His fate is, as yet, undiscovered.

Intifada

THE INCREDIBLE IN PRINT

OVER the years those involved in the national struggle have become aware of the various mind-bending and misinformation techniques of a fundamentally corrupt Capitalist media. This campaign of misinformation operates on many different fronts, but has been used most assiduously to mask the true nature of Zionism, in particular the extent of Zionist influence in the Western world.

Zionist oppression in occupied Palestine may be obvious enough, but the fact of Zionist influence over the foreign policy of the USA is not so visible to the man in the street.

But just occasionally, under the pressure of external events, the media masters slip and allow an insight into the workings of the System's mind. An insight usually perceived in its full significance only by the serious political analyst.

HUMAN RIGHTS REPORT

One such insight was provided recently in, of all places, a *Daily Mail* editorial review of the annual US State Department report on human rights.

This report accused the Israeli army of a "substantial increase in human rights violations". Said the *Mail*, "Not even a new American President in the first flush of office could sanction the release of such outspoken condemnation if it did no more than tell the truth about what is happening in the West Bank and Gaza. What makes its publication

Palestinian youth fight back against Zionist oppression.

politically possible is that it also reflects the mounting anguish of the Jewish community in the US" (our emphasis).

INTERNATIONAL IMAGE

In other words it is not the destruction of the Palestinian nation, nor the constant butchering of her children, that counts, but the increasing belief within America's Zionist lobby that the heavy handed reaction to the Intifada has damaged Israel's international image.

Nothing could better illustrate the moral bankruptcy of the Zionist creed and its fellow travellers in the Western media. They care not one little bit for Truth and Justice - they care only to maintain their own grip on the steering wheel of power. And if the existence of the Zionist State of Israel can best be guaranteed by scaling down the armed reaction to the youthful Intifada, then that is what they will advocate.

There are many anti-Zionist Jews who sincerely oppose Israel's armed reaction, but don't be fooled by Western Zionist crocodile tears - support the legitimate liberation struggle of the Palestinian people. Anti-Zionists of the world unite, you have nothing to lose but your chains!

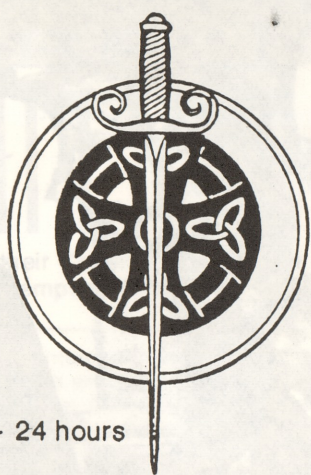

Those wishing to help spread awareness of the plight of the Palestinians should contact Campaign for Palestinian Rights (CPR) for details of their publicity efforts: CPR, BCM 9196, London, WC1N 3XX.

THE GREEN REVOLUTION

BRITAIN'S farmland is being washed and blown into the sea. Soil erosion is usually thought of as being a problem of the Third World, but the latest official figures show that nearly half of our arable topsoil is, at the present time, in danger of being stripped away forever by wind and rain.

One third of the world's arable land is expected to turn to dust by the year 2000. 80 per cent of Africa's topsoil is in danger, India loses 12 billion tons of soil every year, and the American Mid-West is now in as bad a state as in the 1930's Dust Bowl era.

Now, the government's Soil Survey of England and Wales has concluded that 44% of our arable soil is at risk. Detailed studies have recorded annual losses of 80 tons per acre in Norfolk, 73 tons per acre in Sussex and 60 tons per acre in Shropshire. Such vast losses mean that soil is being stripped away many hundreds of times faster than it can be replaced. On average, new soil is formed at a rate of one tenth of a ton on each acre annually.

This looming disaster is entirely the result of intensive farming techniques. Straw-burning and the replacement of natural manure with chemicals have denuded the soil of stabilising organic matter. The destruction of hedgerows has removed shelter from the elements, and heavy modern machinery compacts the soil and destroys its natural structure.

None of these problems are encountered with organic farming methods, which also produce food of a far higher nutritional value, without damaging the environment. Yet the vested interests of agri-business, particularly the giant chemical companies, are doing everything they can to prevent a move to sustainable land use. Their profits come from short-sighted exploitation of our land, so it would be naive to expect anything else.

SPIRITUAL VALUE

The Distributist solution of dissolving the giant farming combines, usually run by absentee landowners such as the financial houses and other Big Business concerns, and the promotion of an environmentally aware Back to the Land movement is the only thing that can save the land, and by implication, our peoples, as we depend upon the land to survive. A society whose tone is set by living rural communities and the family farm is a healthy society and one that possesses a future.

But the overriding question remains: "Would our peoples, who have been systematically uprooted from the soil for centuries, have any inclination to return?"

Of course, there are thousands of young men and women, families, who have been driven from the land in living memory, and would be eager to return under favourable conditions. This is a start. But what of the much greater number who have been born and raised in the soul-destroying cities of the modern age? People, who in many cases have never even seen the countryside?

Thankfully, man has always held an affinity for the land. It holds a certain spiritual value and will always remain close to his soul. And even in our spiritually sick society, for as long as people remain partially free from their increasingly automated lives, as long as they are able to think and dream, their soul will speak to them of the land, our God-given cradle.

Why is it that people will dig deep into their pockets to help to save wildlife and the countryside; people who have no contact with the land? This subconscious rebellion against the dictatorship of money can only be a good sign for the future.

We know that there are hundreds of thousands of people who fully agree with us but would not consider themselves attached to the Movement because of a self-imposed mental block formed by the destructive shortcomings of the old NF. What does it matter? It is our ideas that are important. The NF is simply a vehicle for those ideas and at the moment it is the only vehicle. So as well as attracting a new generation to the Movement we must create the climate where other outlets for our ideas can come into existence and flourish. We must give these many thousands of people who, illogically, find themselves hostile towards the National Front, the opportunity to fight for our vision. But there are also numerous groups who in many ways are sympathetic to areas of Distributist thought if only they knew it.

This must be one of the main tasks of the Movement over the next decade: To spread our ideas throughout society and create the climate for our vision to grow. Our ideas must start to influence existing campaigning structures and cause new ones to come into being. For instance, let's take the various environmental groups. They all do good work in their various fields, but their vision is narrow. They often fail to see that much of what they do is cosmetic and ineffective against the tidal wave of destruction sweeping over our land. They must learn that to save our environment they must defeat the ideologies that are destroying it. Capitalism and Marxism - along with its socialist offshoots - can never exist in harmony with nature, because they are materialist creeds. They must look beneath the ideologies of the System and uncover the Liberal philosophy that spawned them and reject it. For such groups to admit that all opinions are valid is to admit that these exploitative creeds have the right to suck dry our land and our people until empty shells remain; until life is destroyed. If the 'green' movements admit this, then what purpose is there for them to continue? They are presently acting out a cruel charade although they do not realize it.

Only by pulling up these deadly materialistic ideologies by the roots and throwing them onto the fire will there be any chance of a truly Green revolution. A revolution that turns the world back up the right way.

DEAR EDITOR

THE POLITICS OF SEPARATION

Dear Editor,

The feature in *NFN* 115 concerning the 'repatriation' of a section of the Black Hebrew community to Palestine was enlightening and showed the vision and courage of Black separatists since it is they who are being asked to reverse the process of integration.

By migrating to their homeland however, whilst helping solve the racial problem in the US, might not they be contributing to the problem in Palestine? Obviously if the Palestinians accept the two-State solution presumably the African Hebrews could remain in their Negev communities (part of a smaller Israel) without Palestinian hostility (although possibly Israeli).

Perhaps a Palestinian or Jew would like to comment?

Yours,
G.W. Havering, Essex.

Editorial Comment

As far as we are aware no hostility has been directed towards the African Hebrews from Palestinians.

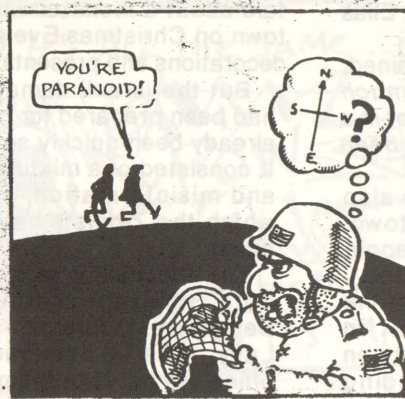

The two-State proposition may be an interim measure worth considering but as far as we are concerned it is not a solution. But on saying this, it is for the Palestinians to decide.

The bandit State of Israel is an illegal and morally unjustifiable entity. It is a well documented fact that the vast majority of Jews have no ancestral tie to the Holy Land but are the descendants of converts to Judaism. This fact is even admitted by eminent Zionists, although they deem it to be of no worth. Semitic Jews, who constitute a small minority of Israeli's and a persecuted minority at that, have every right to live in Palestine, as do the Palestinians and the Black Hebrews.

THE JOKE'S ON AMERICANS

Dear Sir,

Having read your letters column for some time I was a bit disturbed to see that some of our American readers (J.T.) still think the IRA are some kind of misty eyed idealists. What some Americans don't realize is that the Republican movement is taking them for a ride.

A SORRY STATE

Dear Sir,

When as a young girl, 14 or 15 years of age, I remember the Blackshirt organization, and although not being Jewish I warned of them and remember my old boss paying protection money. More recently I remember reading all the propaganda in newspapers and seeing pictures of thugs - blacked out faces of course - allegedly National Front youths.

Imagine my surprise 2 or 3 years ago on answering my door to a very nice young man who was collecting signatures for a road crossing (which people had been trying to get for years). As it was near a council election I asked him was he Tory, Liberal or Labour? When he told me he was National Front I found it very hard to believe, but seeing the sincerity of him, I voted for him. Unfortunately, the Tories got in.

Since then I have had two different young men calling with your newspaper. The fair-haired one, a lovely young man is now my regular deliverer of the paper.

When one reads in the gutter press of today about all the violence directed at senior citizens, it is frightening. But I have a lovely chat with my young lad and I have found that they are all gentlemen and am lucky to have them as friends.

It's a sorry state of affairs in this country now finding ex-servicemen having to sell their medals to live after giving up their youth fighting to keep this country free. The war started 20 days before I was seventeen but directly I was old enough I volunteered and served in the women's airforce. I was so proud of being English. Why I don't know, as what we fought for is now forgotten and now I'm ashamed of being one of this country's people.

When I was young nobody locked their doors and anybody could walk the streets at night. Even trains and alleyways can be frightening now. But if the youths that I have met who deliver my *National Front News* are thugs let's have more of them as being a small person I would trust myself with any one of them. Good luck with all of your works. Being now nearly 66 years of age I doubt if I'll ever see a government made up of you and yours but my luck and blessings go with you.

Yours sincerely,
Mrs. G. Dooley, Essex.

BOXING CLEVER

Dear Sir,

If the NF was in a boxing ring with the Establishment, they would clearly be the bigger, and perhaps better, opponent. It would be like a heavy-weight fighting a feather-weight. But although they can throw punches with more weight behind them, we can use nimble footwork to unbalance and expose the lumbering monster. And when we punch it is with the truth which is more deadly than their punches, thrown with lies and deceit, could ever be.

One tactic that the Establishment uses in order to duck this danger is to try and distort and disorientate its opponents by getting them to punch empty air, thereby wasting valuable time and energy.

The way that they do this is rather like the way a naughty schoolboy can stir things up by distorting the views of one of his fellows and telling another that "so and so said such and such a thing about you", and then going back to the first boy and doing it again but taking it a little further. This will probably lead to the two victims fighting although they really had no quarrel in the first place.

When you translate the Establishment-controlled media to the naughty schoolboy you can easily see that they are attempting, by the distortion of views, to get various groups who oppose them to waste their time fighting each other, rather than the enemy - the Establishment.

But we are no longer juvenile schoolboys and are old and mature enough to see right through the Establishment's little game. So we should no longer waste our energy attacking other groups who oppose them. Because by doing so, our sights are diverted from our enemy.

The fight may go the full fifteen rounds, but as long as we box clever and ignore the enemy's tactics of distraction, we stand a good chance of winning.

Yours,
B.C., Herts.

Editorial Reply

We must be careful to distinguish between different groups who oppose the Establishment. Our enemy is not just the current Establishment but the System that they are an integral part of: Liberalism. There are many groups who oppose the Establishment simply because it is they who want to wield power.

There are groups who we can possibly work in conjunction with or, at worse, ignore, who are imbued with the Liberal spirit simply because it has been the determining factor of society for several centuries. If we find common ground on certain issues we should hope that, by contact, we will eventually wean them away from their error.

On the other hand, there are many anti-establishment groups who adhere to Liberal ideology or philosophy. These groups are our eternal enemies and we will continue to attack them because they are part of the System. There can be no compromise or indifference.

DEEPLY MOVED

Dear Sir,

I am very impressed by your articles on the environmental issues in *National Front News*. My common sense and your position on the issue is in complete harmony. I believe that one can not build a healthy White Britain and Europe respectively, in an environment whose rivers and adjacent seas are poisoned, on land which is no longer producing wholesome food and in polluted air.

I am further impressed by the Movement's Remembrance Day visit to the War memorials on the Somme in France, where Europe's youth spilled their blood in two totally unnecessary wars.

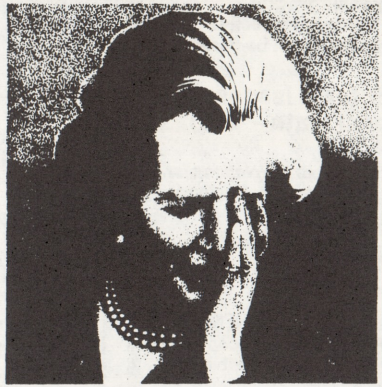

As a British subject of German extraction your comradesly and noble gesture of laying a wreath at the neglected German cemetery at Fricourt moved me deeply. I am translating this as a visible sign of your commitment to the slogan "No More Brothers' Wars." Please accept my heartfelt thanks.

I am enclosing a cheque for £15 as the registration fee to register as a "Friend of the Movement" for the next twelve months.

Yours for race and nation, and harmony amongst all Europe's nations,
M.W. Birmingham.

THE FRONT LINE

ADVERTISING PUSH

THE most important weapon in the armoury of the materialist and exploitative forces in control of our land is their ability to subvert healthy values and trends through the manipulation or control of the media. But their democratic charade offers us the opportunity to play them at their own game by using the media to our own advantage. It was for this reason that the National Directorate of the NF decided to set up an Advertising Fund in order to place recruitment adverts in the press.

We proved that sections of the media would accept advertisements from the National Front by placing the trial advert, reproduced above, in an important regional newspaper where an election was in progress at the time. Not only was the advertisement accepted, but it justified the rationale behind it by bringing in a number of enquiries.

We analysed that to take full advantage of this tactical campaign we would need to raise a very realistic £500 by mid-April. This was to place a number of adverts in important areas where we need to develop the physical presence of the Movement. And we can only do this if we get the money quickly as we need to move on to other projects.

So far the response has been pathetic with a small handful of comrades answering our vital appeal. These few comrades have made a magnificent response to further our Cause, whilst the thousands who profess to support the national struggle have done nothing.

The National Directorate and *NF News* wish to make it clear that when we issue these appeals we don't do it because we have nothing better to do! Appeals for various funds are issued from time to time because the resulting gains constitute an important stage in a longer term strategy of physical growth and consolidation and organizational efficiency. They are vital to our development and must be acted upon.

Without doubt, the blame for this dismal response lies squarely upon the shoulders of local units. We realise that our activists already make enormous financial sacrifices for the Movement, day in and day out, and we do not expect them to carry the added burden of appeal funds from their own pockets as well. But most people will only donate when they are pushed to do so. And no unit that we are aware of is pushing regularly for donations. How many units have donation tins? How many have ever even thought of it? How many take them out on street sales and door to door sales? This is something that every unit without exception must correct immediately! Push for literature sales and push for donations. And then push some more!

So far the £500 appeal has brought in a total of £215 - less than half the required total! The outstanding £285 must be cleared within the next two weeks. You know what is to be done!

Many thanks to all those who have donated so far. Our special thanks go to B.H. of Cambridge who has given £58 (over a quarter of the total raised so far!); J.H. of Preston, a pensioner who has donated £20 on top of his regular monthly donations of £5 to the NWA; and G.K. a hard up student from Hants who generously answers all our appeals and has donated £30 to this one.

PUBLIC WARNING

Recently, it came to our attention that an obscure publication entitled "*League Sentinel*" carried an advertisement for *National Front News* without our knowledge or consent. Whilst we are anxious that the general public should be made fully aware of what the National Front really stands for, we do not wish to be tainted by association with this journal, directly or indirectly. It's main purpose appears to be the propagation of the sterile and irrelevant politics of National Socialism through the sales of S.S. videos and the like.

This undesired advertisement appeared alongside a number pushing journals and views that we utterly reject. In particular, we object to being associated with the thieves and police spies that lead the minuscule flag group. The "*League Sentinel*" justifies this "broad church" approach by claiming that "*we are all nationalists*." This is not so - these groups are no more than the Tory and Nazi cross that the media like to hold up as an excuse for nationalism, so as to divert people from the Third Position politics of the NF.

We warn the publishers of this publication, publicly, that if this episode is repeated legal action will ensue.

BECOME A FRIEND
OF THE MOVEMENTIT'S THE LEAST
YOU CAN DO!

Do you recoil at nauseating images such as that pictured above? Unfortunately, it's more than an image. It is a reality! And if we want to build a better society we must render the Evil Alliance impotent.

To build a better society we need to build the National Front and the way to do this is for YOU to become a 'Friend of the Movement'.

To become a member of this association it costs a mere £15 per year - in other words we are asking you to give less than 29 pence a week to help save our country. Surely it's the least you can do!

In return you will receive a FOM card, we will keep you updated with important developments and achievements in our work and you will gain the satisfaction of knowing that you are playing an important part in our struggle. Quite apart from allowing us to carry on with, and expand, our work, *Friends of the Movement* play the important role of acting as the eyes and ears of the Movement in the population.

I would like to become a Friend of the Movement and enclose a cheque/postal order for £15 in favour of *Friends of the Movement*.

NF NEWS SUPPORTERS
action list

This column is aimed at National Front News Supporters and their activity units. We will offer advice, give new instructions and make suggestions on how we can make the NF even more efficient and successful. So don't just read it - ACT ON IT!

* Redbridge *NF News* Supporters won large publicity by donating a copy of the controversial *Green Book* by Colonel Qathafi to Ilford Central Library.

Reports concerning the ensuing controversy appeared in the *Ilford Recorder*, *City Limits*, the *Jewish Chronicle* and possibly elsewhere. The Directorate wants to spread this campaign. Individuals and units should donate a copy of the *Green Book* to their local library by recorded delivery post with a letter making it clear that this is done on behalf of the NF.

Send press statements out on the issue and let *NF News* know about any resulting publicity generated. If you don't hear anything, enquire from the library whether they will accept it and badger them until you do.

CLASSIFIEDS

Donated Adverts

Adverts appearing under this heading have been donated free of charge by *NF News* because we feel that these charities or groups are worthy of support. Adverts are published without the knowledge or consent of those mentioned.

This wing of the Afghan movement struggles against both Superpowers and is led by Gulbudin Hekmatyar. There has been a heroic struggle against the tyranny of Marxism which has left thousands of children maimed or orphaned. They need help financially to alleviate many problems, and they need people to spread news of their struggle.

LEGAL

Remember the Cause in your Will

We wish our readers and supporters a long and healthy life, but for all of us the time for departure must eventually come. We feel that everyone will wish, when this time does arrive, to leave something behind that will help to carry on the struggle.

You can help the Cause when you are gone by making provision in your Will for those who will be doing the fighting after you. You can do this by bequeathing money to the National Front. Make sure you remember the National Front when you make out your Will. If you have already written your Will add a codicil for the benefit of the Movement. If you are unsure about any of the legal technicalities in arranging this, please do not hesitate to contact our Legal Department or see your own solicitor and he or she will advise. A short time ago the National Front benefitted from a substantial amount of money left to it by a deceased supporter. You too can help in this way. Can you think of a better way to go?

RACE TYRANTS TO PERSECUTE WELSH PATRIOT

COMMISSION
FOR RACIAL
EQUALITY

A WELSH FARMER who is offering his farm for sale to a Welsh family only, has been threatened with court action by the Commission for Racial Equality.

Idwal Williams and his family have farmed the 42 acre holding at Cefnddwysarn, Y Sarnau, near Bala, since 1937.

Now, Mr. Williams, 66, is about to retire. His farm has been on the market for over six months, during which time he has turned down dozens of offers of up to £160,000 from potential purchasers from England. He and his wife, Rhian, say that they are prepared to accept £30,000 less from a Welsh family.

"I will not sell to outsiders or speculators a piece of our Welsh heritage," says Idwal Williams defiantly.

The Williams' brave and selfless stand in defence of Welsh Wales is also supported by their youngest daughter, Catrin, who is prepared to leave art college in Caerdydd and run the farm herself rather than see it sold to English buyers.

EFFECTIVE

The Williams' action shows the only really effective way to halt the destruction of rural Wales by immigration and holiday homes. If other Welsh property vendors followed their example, the problem would at least cease to grow worse overnight.

In this environment local community co-operatives could start the much larger process of repossessing the homes and land

already lost to outsiders who refuse to learn the language and adopt the culture of Wales.

But the enemies of all cultures and nations are already taking steps to stamp out this spark of hope for Wales.

The London-based Commission for Racial Equality managed to stop people in England advertising houses "for sale to an English family only" back in the 1970's. Now they hope to spread the tyranny of uniformity to Wales as well.

RACE ACT THREAT

They say that Mr. Williams could be sued for discrimination under the Race Relations Act.

Francis Deutsch, a member of the C.R.E.'s legal section, has said that would-be buyers from England are "entitled to sue for discrimination." Idwal Williams would then face massive legal costs, compensation payments and could even be forced by the courts to sell his farm to them.

If that happens, *NF News* would obviously hope that the bullies' neighbours would do whatever proved necessary to show them that Wales cannot be bought against the will of her people, even if English courts

Idwal Williams: Making a brave stand for Welsh Wales.

and laws claim differently.

NF ACTION PLEDGE

For our part, the National Front makes this pledge of action:

If any English person does bring a legal action for discrimination against Mr. Williams, or any other Welsh vendor in a similar position, we will use our organization in England to persuade them to drop the case like a hot brick.

As soon as we identify where they live, we will PICKET their home in England; CALL on their neighbours to explain why the action is so outrageous and why it is bringing trouble to their street; FOLLOW them and their family on their daily business and explain why they are scum to everyone with whom they have contact.

If they have a business, we will take out adverts in the local press and distribute leaflets asking people to BOYCOTT it.

Our actions will be all peaceful and non-violent, but we will make their lives as miserable as they themselves would be doing to any Welshman or woman who they dragged through the courts under an unjust foreign law.

We will bully the bullies - We will defend Wales, just as we defend every nation in the British Family of Nations.

FRONT SLAMS FIREBOMB SMEAR

NF LEADERS reacted quickly and angrily to a major smear article in the *Times* of 29th March. Written by Alan Franks, the feature entitled "A front for the Front", claimed that the direct action group, Meibion Glyndwr, is an NF front. This is totally untrue. The NF has never had any links with MG, nor knows who the people involved with it are. Nor does the NF hold, or has ever held, paramilitary training camps as the wildly inaccurate article also claimed.

Past articles in *National Front News* have made it perfectly clear that we regard their, no-doubt sincere, actions as being misguided. The many problems that face Wales can only be overcome by mobilizing the whole community through positive social and political campaigns, and not by the secretive actions of individuals.

The NF has been in touch with the *Times* repeatedly since the article appeared, in order to give them the

chance to print letters of correction, so that further action will not need to be taken over this matter.

Quite apart from the many inaccuracies and downright lies in the article, the main NF complaint is that the *Times* made no attempt to give us a chance to comment on the serious allegations made in the smear article.

Although the feature dealt exclusively with the NF, the *Times* saw fit to contact Westminster-based Welsh sell-outs Plaid

Cymru for their views, but deliberately avoided asking us for our reply to their absurd claims.

Plaid are terrified of the potential that clearly exists throughout Wales for FfC/ Wales NF so their hysterical attacks on our young Movement are to be expected. But for the so-called 'paper of record' to use the gutter smear tactics of the dross of the publishing world is quite another matter. We will not let such vicious fantasies go unchallenged!
